

# EcoService Pro

AI-powered, secure multi-tenant SaaS for federal, state, and local field service, facility maintenance, and energy resilience missions. Delivered by **EcoPowerHub AI LLC**.

## CORE COMPETENCIES

### Field Service Modernization

- AI dispatch, scheduling & route optimization
- Maya AI guided repairs & photo diagnostics
- Mobile-first PWA for offline field crews
- Inventory, assets, e-signature invoicing

### Secure Cloud & Integration

- Row-Level Security, MFA, HIBP, full audit log
- SOC-aligned governance (see /compliance)
- M365 / Google SSO, Stripe, Zapier, Make.com
- Cloudflare Workers & Railway multi-region

### Energy & Facility Intelligence

- Energy savings calculator & ESG dashboards
- HVAC, appliance, marine & plant asset mgmt
- Preventive maintenance & compliance logs
- IoT / meter ingestion via on-chain oracles

### AI & Automation

- Maya AI Assistant — repair & ops copilot
- Grok / Gemini routing via Lovable AI Gateway
- MCP tools for agent workflows
- Sovereign on-chain oracle (Internet Computer)

## DIFFERENTIATORS

- **Fix It Yourself with Confidence** — guided repairs & Maya AI live in your pocket; empowers in-house facility teams to resolve issues without vendor delays.
- **Rapid deployment** — secure multi-tenant SaaS live in under 48 hours with CSV migration from ServiceTitan / Jobber / FieldEdge.
- **Energy resilience focus** — purpose-built for critical infrastructure, mission facilities, and disaster-response continuity.
- **Sovereign AI backbone** — Internet Computer canisters (*oracle\_ai\_v2*) deliver tamper-evident inference & audit trails suitable for federal review.
- Transparent flat per-technician pricing — no per-invoice fees; friendly to GPC / micro-purchase card procurement.

## NAICS & PSC CODES

|                 |                                                                                |
|-----------------|--------------------------------------------------------------------------------|
| Primary NAICS   | 541511 — Custom Computer Programming Services                                  |
| Secondary NAICS | 541512, 541519, 541611, 541618, 541690, 511210, 518210, 561210, 238220, 811310 |
| PSC Codes       | DA01, DA10, J045, R425                                                         |
| Set-Aside       | Small Business (self-certified)                                                |

## REPRESENTATIVE EXPERIENCE

- Production SaaS serving HVAC, appliance repair, marine, and industrial plant maintenance crews across the EcoPowerHub AI ecosystem.
- Sovereign v2 AI infrastructure live on Internet Computer mainnet (*oracle\_ai\_v2*, *core\_hub\_v2*, *ingress\_v2*, *oracle\_v2*) — publicly auditable diagnostic AI.
- Multi-tenant platform supporting 50+ locales, local pricing, GDPR/DSAR workflows, and CI-enforced RLS regression suite.
- SOC-2-aligned governance package (InfoSec, Access Control, Data Privacy, Incident Response) published for auditor review.
